Legal Disclaimer :

This bar is not to be used as a grab bar and it is not intended to support weight. Before you begin, identify the appropriate area to install this slide bar, proper location should be above 48" from the floor (as per ASTM F446).

It is recommended that slide bar to be mounted directly to the structural framing of your home. If necessary, cross bracing can be installed to provide adequate support.

Installation:

<p>1</p> <p>622mm</p>	<p>1. Mark the position of the mounting screw by inserting a pencil through the center of the end post. Drill the holes and insert plastic anchor until it is flushed with the surface of the wall.</p>	<p>2</p>	<p>2. Take apart the up and down fixer.</p>
<p>3</p> <p>The vertical-hole fixer for upper hole.</p> <p>The cross-hole fixer for down hole.</p>	<p>3. Take off the cover of the fixer and screw it to the wall with mounting screw. Note the fixer is different for top and bottom side.</p>	<p>4</p>	<p>4. Attach the tube to the fixer and put the cover on and note the direction. Then attach the hose to the hand shower and put in the slider.</p>
