

Brass Console Sink Legs & Towel Bar

This exploded perspective view illustrates the assembly of a mechanical device, likely a prosthetic limb. The components are numbered as follows:

- 1**: A small cylindrical cap or plug at the top of the vertical shaft.
- 2**: A spherical joint or ball head connecting the vertical shaft to the horizontal arm.
- 3**: A cylindrical component at the bottom of the vertical shaft.
- 4-a** and **4-b**: Small circular components, possibly seals or spacers, located at the base of the vertical shaft.
- 5**: A long, thin horizontal arm or tube.
- 6**: A vertical shaft or tube.
- 7**: A small cylindrical component connecting the horizontal arm to the vertical shaft.
- 8**: A long, thin horizontal arm or tube.
- 9**: A spherical joint or ball head connecting the horizontal arm to the vertical shaft.
- 10**: A small cylindrical component connecting the horizontal arm to the vertical shaft.
- 11**: A cylindrical component at the end of the horizontal arm.
- 12**: A small cylindrical component.
- 13**: A small cylindrical component.
- 14**: A small cylindrical component.
- 15**: A small cylindrical component.
- 16**: A small cylindrical component.
- 17**: A small cylindrical component.
- 18**: A small cylindrical component.
- 19**: A small cylindrical component.
- 20**: A long, thin horizontal arm or tube.
- 21**: A small cylindrical component.
